

HUNTER *Xcite*

DISCOVER THE DIFFERENCE

30  YEARS

The New Xcite® is ten feet of fun and excitement for all ages. There are choices in sail area to go from relaxed to radical, and the boat is light enough to cartop, strong enough to beach and totally unsinkable for safety. This is definitely a new generation of performance sailing. The Xcite® uses the patented Advanced Composite Process that takes thermoformed UV protected plastic, fiberglass mat and injected foam and combines them into a rigid, sturdy hull that is five times more impact resistant than conventional fiberglass.
